Pandora.com is part of the Music Genome Project. Here, you can set up your own “radio stations.” For instance, you can set up a “John Pizzarelli Radio Station” that plays Pizzarelli music in heavy rotation along with other artists with similar musical characteristics to Pizzarelli. It’s an interesting concept, especially when you’re in the mood, say, for a particular artist. Use your regular web browser to go to www.pandora.com
